(1) Children's Health Records.

- (a) Before an infant or toddler is accepted for care, the parent shall have proof of the child's physical examination within three (3) months prior to admission, signed or stamped by a physician or health care provider. Each infant/toddler shall have on file an official health record of the initial medical checkup and health history prior to entering the program.
- (b) Each child shall be immunized according to the current Department of Health guidelines.
- (c) A copy of each preschool child's immunization record, signed or stamped by a certified health care provider, shall be on file in the child care center and shall be available to the appropriate staff.
- (d) A copy of the child's health history provided by the child's parent or other caretaker, which need not be signed or certified by a health care provider, shall also be on file in the center and shall be available to appropriate staff. The immunization record and health history shall be returned to the child's parents, or other caretaker when the child is removed from enrollment at the center.
- (e) Before a school-age child is accepted for care, the center shall have on file a statement from the parent (or school) that the child's immunizations are current and that his/her health record is on file at the specified school which the child attends.
- (f) Exceptions to requirements in subparagraphs (a) and (b) of this paragraph may be made only if:
 - 1. The child's physician or the health department provides a signed and dated statement, giving a medical reason why the child should not be given a specified immunization; or
 - 2. The child's parent provides a signed written statement that such immunizations conflict with his/her religious tenets and practices.

- (g) If children with mental, physical, or other impairment, or with a medical disorder, are enrolled and special care is needed, their health records shall include a physician's statement which identifies the condition and which gives the physician's or other appropriate care professional's special instructions for the child's care. An update must be provided as needed, but at least yearly.

(2) Children's Health.

- (a) Children shall be checked upon arrival and observed for signs of communicable disease during the day. Symptomatic children shall be removed from the group until parents are contacted and health issues are resolved. Every sign of illness shall be reported to the parent as soon as possible but no later than the end of the day in which it occurred.

(Rule 0520-12-1-.10, continued)

- (b) Use of oral and rectal thermometers is prohibited. A child's temperature should be taken using a non-invasive method unless otherwise prescribed by a physician.
- (c) Parents of every child enrolled shall be notified immediately if one of the following communicable diseases has been introduced into the child care center: hepatitis A, foodborne outbreaks, food poisoning salmonella, shigella, measles, mumps, rubella, pertussis, polio, haemophilus influenza type B, meningococcal meningitis. (Note that this requirement does not apply in the case of HIV infection as the center may not be aware of such infection, and HIV may be present without apparent symptoms.)
- (d) Providers shall report the occurrence of the above diseases to the local health department.
- (e) Universal precautions shall be followed when handling or cleaning bodily fluids.
- (f) For the protection of children and adults, when blood is to be handled (e.g., resulting from injury to a child or adult, from nosebleed, or from spillage), vinyl or latex gloves shall be used and properly disposed of following use with/by one individual. The center shall make all reasonable attempts to report injuries to the parent as soon as possible, but no later than the end of the day in which they occurred.
- (i) All medications, prescription and non-prescription, whether requiring refrigeration or not, must be received from the parent by a designated staff person or management level staff person who must verify in writing the following:
 - 1. The parent's written authorization to administer medication;
 - 2. That medicines or drugs are in the original prescription container and labeled with the child's name;
 - 3. The specific dosage and times medication is to be administered to the child;
 - 4. That the parent has shown the center staff person or management level staff person how to use the container to administer medication;
 - 5. Documentation of the following items: times medications administered, noticeable side effects, name of staff person administering medication to child, the fact that information was reported to parent, and the parent shall sign that the above information was received, and that unused medication was returned to the parent.
- (j) Medication shall not be handled by children or administered in bottles or infant feeders unless authorized by a physician. There must be an alternate staff person or

(Rule 0520-12-1-.10, continued)

management level staff person to perform these duties in the event the designated staff person or management level staff person is out of the center.

- (k) Exception to item (i) above: A physician's authorization for the current school year shall be on file for school-age children who must have self-administered medication.
- (l) All medicines, prescription and non-prescription, whether requiring refrigeration or not, shall be made inaccessible to children by storing them in a locked compartment or container. Keys for these compartments shall be inaccessible to children. No medicine shall be stored in children's classrooms.
- (m) Unused medication shall be returned to the parent.
- (n) Prohibited practices and products.
 - 1. Smoking is not permitted in the presence of children. Under state law, smoking in child care centers that are not private homes is restricted within a child care facility to areas where children are not permitted access, and parents must be given notice that the facility has a smoking area. No smoking signs must be posted conspicuously within the facility as provided by state law. Federal law prohibits smoking in any part of a child care facility that is not a private residence if the facility is constructed, operated, or maintained with Federal funds.
 - 2. The use of alcoholic beverages is not permitted in child care centers during the hours of operation of the center, and alcoholic beverages shall not be present in areas where children are permitted access in the child care facility.
 - 3. Illegal activities on the premises, property, or vehicle, or which otherwise places children at risk are prohibited.
- (o) Children shall be diapered/changed and cleaned immediately when wet or soiled.
- (p) For the protection of children and adults, the Centers for Disease Control guidelines for handwashing and diapering procedures shall be followed.
- (q) The diapering area shall be off the floor and have a washable surface. The diapering area and/or toilet training area shall be located near a handwashing lavatory and shall not be in a food preparation/service area.
- (r) For older children, appropriate diapering area shall be in a private area, separated from sight of other students. The diapering area (whether on or off the floor) shall have a washable, non-absorbent surface; be located near a handwashing lavatory with anti-bacterial soap and running water and shall not be in a food preparation/service area.
- (s) All diapering surfaces must be nonporous and shall be sanitized after use with each child by using solutions described or otherwise permitted in subparagraph (t) below.
- (t) Cleaning Solutions for General Cleaning and Sanitizing Purposes.
 - 1. For general cleaning and sanitizing purposes, a fresh solution of one quarter (1/4) cup chlorine bleach to one (1) gallon of water (or one (1) tablespoon bleach to one (1) quart of water) shall be made daily.

(Rule 0520-12-1-.10, continued)

2. Substitutions for the bleach solution required in part 1 of Rule 0520-12-1-.10(2)(t), approved for the child care setting by the Department of Health are permissible.
3. Note that the solution required in part 1 of Rule 0520-12-1-.10(2)(t) is not appropriate for items associated with food preparation or for items that children frequently place in their mouths. The Health Department requires that the bleach solution used for sanitizing utensils, food contact surfaces and in three (3) compartment sinks be fifty (50) to two hundred (200) parts per million chlorine. For items such as large mixing bowls, etc. which do not fit in the sink, the solution may be doubled to one hundred (100) to four hundred (400) parts per million chlorine. The Health Department does not permit the use of higher concentrations than these in food preparation areas. Specific jurisdictions may have even more stringent requirements, therefore, the local environmentalist should be consulted for this reason. For reference purposes, one (1) teaspoon per one (1) gallon water is approximately one hundred (100) parts per million chlorine solution.

(u) Requirements for Tuberculosis Screening of Child Care Populations.

1. The Centers for Disease Control and Prevention no longer recommends pre-employment tuberculosis screenings for the general population. Furthermore, they do not recommend routine tuberculosis screening for staff, volunteers, or children in child care settings.

- (5) Investigations of Child Abuse and Neglect; Custodial Authority of Children.
- (a) Suspected child abuse or neglect shall be reported immediately to the local department of children's services office by the staff of the child welfare agency. Any citizen is required by law to cooperate with the Department of Children's Services (DCS), law enforcement, and other investigators. Failure to do so for children in the care of an approved child care agency is, by itself, grounds for suspension, denial or revocation of the agency's license.
 - (b) A child care provider shall further cooperate by providing access to the records of children and staff and by allowing investigators to interview children and staff. (Child care providers do not have a right to be present during interviews with staff or children or to receive information or results of the interviews or investigations concerning child abuse or neglect unless directly related to efforts to enforce the child abuse or licensing laws.)
